SOUTH AFRICAN PISTOL FEDERATION NATIONAL LEAGUE LOG

Members are classified by computing the "average" based on the classification of each event of the member. To compute this "average" the key in Table Grading for the different classes will be used and the event total divided by the number of events of the member. Any fractional figure in the "average" of 1/2 or more will place the member in the next higher class. The "average" will establish classification of the member as a unit but will not affect in any way the individual classification of member.
